WEBSITE AND SOCIAL MEDIA CONTENT

At HFH Healthcare, I reinforced the company's brand identity by delivering clear and concise messaging that resonated with NHS commissioners seeking complex care providers for their clients and other individuals curious about what we offer.

By developing consistent marketing materials and campaigns that highlighted our commitment to quality and personalised care, I helped build trust with commissioners and clients alike.

My efforts ensured that every piece of content reflected the company's values, fostering confidence in the exceptional standards of care we provide. This is further expressed in the company's blue colours, conveying trust, reliability and professionalism.

My Best Works

HFH HEALTHCARE QUALITY ACCOUNT 2023/2024

While at HFH Healthcare, I was tasked with creating a Quality Account, showcasing our ability to provide exceptional complex care, highlighted by our 'Good' Care Quality Commission rating, and displaying the various metrics in which we demonstrated our competencies.

KELLY'S STORY

I was also tasked with creating a video of our client Kelly, who has a rare spinal injury. I recorded the footage, created and edited the video and uploaded it to our website, along with copy showcasing her inspiring story of strength, and how complex care changed her life.

The video was really well received by clients and commissioners alike, who believed it showed off the exemplary complex care delivered by HFH Healthcare.
